NIGERIAN NATIONAL ANTHEM

I. Nigeria, we hail thee,
Our own dear native land,
Though tribes and tongues may differ
In brotherhood we stand,
Nigerians all, are proud to serve
Our sovereign Motherland.

II. Our flag shall be a symbol
That truth and justice reign,
In peace or battle honour'd,
And this we count as gain,
To hand on to our children
A banner without stain.

III. O God of all creation,
Grant this our one request.
Help us to build a nation
Where no man is oppressed,
And so with peace and plenty
Nigeria may be blessed.

THOMAS ADEWUMI UNIVERSITY ANTHEM

Welcome to Nigeria's Leading Light in STEMi Education

Thomas Adewumi University (TAU) is Nigeria's fastest-growing Science, Technology, Engineering, Medicine, and Innovations (STEMi) ecosystem. Licensed by the Federal Government on the 8th of April, 2021, TAU emerged at a time when universities worldwide are undergoing a paradigm shift in academic delivery due to the demands of advancing technology, new policies based on COVID-19, problem-solving-focused curricula, evolving pedagogy as well as the demands of regulatory agencies, ranking and accreditation bodies.

Building on a proud legacy of about three decades' experience in nurturing great minds through the Thomas Adewumi International College (established in 1997), TAU is driven by a shared purpose: to be the university of choice for excellence and character, where developmental ideas and innovative knowledge are sourced for the benefit of mankind. We are at the forefront of providing world-class education through teaching, research, and societal impact, playing a key role in economic recovery and ensuring a more resilient society for the future.

Our community is committed to making the world a better place through an educational system that develops the total person. As a non-profit institution, we create equal opportunities for everyone—whether working, studying, or just visiting our grounds—to thrive. While we are an elite institution offering premium educational services, we are not elitist or discriminatory. Instead, we welcome talented individuals from all socioeconomic, religious, and experiential backgrounds.

TAU prepares her students for a thriving career in a technological-driven world through innovative entrepreneurship and skills development. The TAU Career Centre ensures that all students, irrespective of their field of studies must acquire a minimum of two skills from each of the TAU Vocational and technical Skills center and the TAU Innovation Hubs.

In addition, the University has introduced a Distance and Open Learning Centre to further enhance students' access to quality education.

Recognising the importance of building a sustainable future, we are deeply committed to making a meaningful contribution to all the 17 Sustainable Development Goals. At the heart of our university lies a diverse community of passionate researchers, scholars, and experts from various disciplines, all united by a common purpose: to address the world's most pressing sustainability challenges while nurturing the next generation of leaders and change-makers. By embodying the principles of sustainability and inclusivity, we exemplify the transformative power of education and serve as a catalyst for positive change on a local, regional, and global scale.

through poverty our alleviation initiatives, ending hunger through agriculture.
